## FAMOUS JOHNNIE SMITH'S FISHING REPORT

Johnnie really does know how to catch 'em...  
"what he does is, he talks em into surrendering..."

### Recent reports from around the area:

- Sylvan Beach – few flounder & trout.
- Pine Gully – few flounder and finger mullet.
- Sunset – lots of fish stories & a nice new pier ready for fishing
- Eagle Point – lots of trout & flounder in the deep waters.
- Seabrook Flats – reds, few flounder and trout.
- 18th Street Pier – few specks & trout.
- Galveston – lot of flounder & trout in the ship channel.
- April Fool's Point – few flounder & trout.
- Trinity Bay – north shore line is good fishing when the sun is out.
- East Bay – trout and reds are still good in the deep.

With all of this cold weather, the fish are settling into the deep waters. Fishing in the shallows is good on sunny days when the fish move in. Don't forget to take precautions for your boat, we will have freezing temperatures for several days. You want to winterize

your boat. Because boats and engines differ, read your owner's manual.

**And remember:  
If you're too  
to fish –  
you're just  
busy!**

**Beware of the dolphins:**  
Dolphins have been known to attack humans on rare occasions. Even rarer, dolphins have been caught trying to "hump" humans, so be careful when you're in the water!
